

Reed Farrow

Wilmington, NC | (919)-520-7275 | rbf4504@uncw.edu
<https://www.linkedin.com/in/reed-farrow/>

EDUCATION:

University of North Carolina Wilmington

Bachelor of Science, Computer Science

Concentration: Digital Arts

GPA: 3.231

December, 2022

Commented [HSL1]: Including your GPA is important. A general guideline is if you have a 3.0 or higher, go ahead and include it. You worked hard for it! You might also choose to calculate and share just your major GPA. If you decide to go that route, you can write it as, "Major GPA: "

SKILLS:

- Web Design – HTML, CSS, JavaScript, XML
- Programming Languages – Java, JavaScript, Python
- Software specializations – Autodesk Maya 2022
- Application Development – Android Studio
- Collaboration – GitHub, Git

RELEVANT PROJECTS:

Software Engineering Project

Spring 2022 (In Progress)

- Collaborating with a team in a project focused environment aimed at exposing us to real world software engineering challenges and communication.
- The software developed is a space-themed shooter video game which includes compatibility with a mobile application that acts as a companion to assist the player in the game.
- Knowledge of game development and Android application development was necessary.

Autodesk Maya Animation Project

Fall 2021

- Used knowledge of modeling, rigging, and animation to create a minute long animation following the four-arc story board.
- Needed knowledge of rendering and multi-media composition with Adobe After effects to compile and produce a final animation.

COURSEWORK:

Complete

Discrete Mathematical Structures
3D Computer Graphics Tools & Literacy
Digital Logic and Computer Organization
Design and Analysis of Algorithms
Application Development for Mobile Apps
Computer Animation
Object-Oriented Programming and Design

Current Spring 2022

Intro to Esports
Intro to Cybersecurity
Database Design & Implementation
Programming Languages

Design and Analysis of Algorithms
Formal Languages and Computability
Professional and Ethical Issues in Computing
Software Engineering

WORK EXPERIENCE:

The Port City Experiment | Wilmington, NC

Founder

February 2021–Present

- Organizing teams consisting of visual arts, content production, and event organization.
- Manage and update social media platforms every day in order to provide up-to-date information about music events and shows in Wilmington.
- Contact and connect with local businesses owners and promoting said businesses to a wide variety of followers.

Commented [LW2]: Everyone one has their own story. Some will have extensive experience, others not so much. Some experience will be relevant to CSC/IT, others will not – both are OK. This student worked at a skating rink doing non-CSC/IT jobs BUT – he got a promotion to a leadership role. That says a lot about his work ethic.

Intern, Triangle Microworks | Raleigh, NC

Summers 2018-2019

- Used XML and HTML to format and create a clear user manual for the consumer of Triangle Microworks' software.
- Updated pages on the company website so customers can easily find information about contact and troubleshooting.

Maintenance Technician, Ravenscroft School | Raleigh, NC

Summers 2015–2018

Commented [HSL3]: Start with your most recent experience and then work your way backwards, ending with the oldest.

CAMPUS INVOLVEMENT:

UNCW Club Lacrosse

- Associate Head Coach (2022)
 - Leading and directing practices
 - Communicating with team captains, executives, and other coaches regarding game scheduling, practice, and personnel decisions.
 - Communicating with other schools programs and leadership to organize scrimmages or events.
- Three years of experience playing competitive club lacrosse at the collegiate level. (2018 – 2021)

Commented [HSL4]: Examples in the technical disciplines include – Cyber Defense Club, Information Systems Association, Student Operations Management Association, SIGGRAPH (Special Interest Group on Computer Graphics and Interactive Techniques), PC Enthusiast Club, ACM...Of course, there are plenty others related to athletics, leadership etc...
